ABOUT SAFE WATER NETWORK INDIA

Safe Water Network India is a not-for-profit organization, committed to developing scalable, sustainable market-driven innovative solutions to deliver safe, affordable water to those in need. We bring together diverse capabilities to address the challenges of local ownership and sustainability. Working with the private and public sectors, we advance our field initiatives for broad replication. We also document and share this effort through forums, workshops, reports, and case studies. Our water systems provide reliable safe water access to over 250,000 people in India.

OUR PROGRAM SUPPORTERS

Newman's Own Foundation, The Starr International Foundation, Underwriters Laboratories, Bharat Heavy Electricals Ltd. (BHEL), Cisco Foundation, National Bank for Agriculture and Rural Development (NABARD), and India Water Partnership.
